

# **Quonset Development Corporation**

## **Water / Wastewater Department**

### **Service Call Request Policy**

It is the policy of the Quonset Water and Wastewater Departments is to charge on as requested bases for service activations, shut downs, trouble calls, or repairs associated with water and sewer service lines from the building face to the point of service at the main.

These service fees are necessary given the fact these service calls are difficult to predict and therefore are not part of the water and sewer operating budget and are therefore billed separately on an as needed or requested bases.
